PROFESSIONAL SUMMARY

Senior Full Stack Software Engineer with 6+ years of experience building scalable SaaS platforms, RESTful APIs, CRM systems, and enterprise web applications using **Laravel, JAVA, PHP, React, Next.js, Vue, Angular, Node, Docker, CI/CD**. Skilled in MVC architecture, microservices, MySQL, Redis caching, Docker, AWS, and Linux/Nginx server administration. Experienced in designing secure backend architectures (OAuth, JWT authentication), implementing CI/CD pipelines, unit testing, and leading Agile/Scrum teams to deliver high-availability solutions for global clients across the US, Thailand, and the APAC region.

PROFESSIONAL EXPERIENCE

Senior Full Stack Software Developer (IT Manager) | Sep 2023 - Present

Zaffran InfoTech Solution Pvt Ltd — Cambodia

- Lead backend engineering for enterprise SaaS platforms using ReactJS, Inertia.js, Laravel, and Filament with Docker-containerized microservices.
- Reduced API latency by 30% through REST API optimization, MySQL query tuning, and Redis caching.
- Integrate international payment gateways and deliver REST APIs secured with OAuth and JWT for crypto and fiat currency transactions, including custom payment pages for fundraising projects.
- Oversee CI/CD pipelines, deployment automation, and Linux/Nginx server configuration across multi-client environments.
- Deliver major feature releases on schedule within Agile/Scrum development cycles.
- Improved code review throughput by 40% through streamlined review workflows, Unit testing coverage, and mentoring practices.
- Work across Java, Inertia.js, Vue.js, Next.js, Node.js, Express.js, Laravel, Livewire, Filament, and Docker depending on project requirements.

PHP Developer | Sep 2021 - Aug 2023

Coding Brains Software Solution Pvt Ltd — India

- Built CRM and enterprise web applications for clients in US markets using AngularJS and ReactJS bound to REST APIs, following MVC and SOLID design principles.
- Developed ERP, e-commerce, and HRM systems using PHP, Laravel, jQuery, AJAX, CSS, and HTML, and integrated Webex APIs into client websites.
- Partnered with clients to translate requirements into scalable technical solutions.
- Integrated payment gateways including PayPal, Stripe, Razorpay, and Square.
- Standardized coding guidelines team-wide across Food Management and Hotel Management System projects.

Associate Developer | Jul 2020 - Aug 2021

Aara Technologies Pvt Ltd — Lucknow, India

- Developed a push-notification system, chat system, and email system to support users.
- Built REST APIs using CodeIgniter for an e-commerce shopping site.
- Built a real estate website using PHP, including database management.
- Designed pages for an online marriage hall booking website.
- Built backend APIs and admin panels for global web and mobile applications.

Jr. Developer | Aug 2019 - Jul 2020

Dealsinfotech.in — Lucknow, India

- Collaborated with the UI/UX team to launch new features, improving site performance by 25%.
- Wrote unit testing and documentation to improve release reliability.
- Designed online restaurant menu pages using PHP, HTML, CSS, JS, jQuery, and AJAX.
- Reduced bug rate by 20%.

TECHNICAL SKILLS

Frontend: ReactJS, Next.js, Vue.js, AngularJS, Inertia.js, JavaScript, jQuery, AJAX, HTML5, CSS3, Bootstrap

Backend: Laravel, Java, Node.js, Express.js, REST API, MVC, SOLID, Microservices, Filament, Livewire, CodeIgniter, PHP

Database & Caching: MSSQL, MySQL, PostgreSQL, Oracle, Redis, Workbench, Query Optimization

Cloud & DevOps: AWS (ECR, ECS), Azure, GCP, Docker, CI/CD, Deployment Automation, Linux, Nginx, Apache

Security & Auth: OAuth, JWT, Payment Gateway APIs, Webex API

Testing: Unit Testing

AI & GenAI: Claude (Anthropic), Generative AI Tools, Prompt Engineering

Payment Gateways: Help2Pay, VIZ Pay, Match2Pay, QT Services, PowerPay88, Razorpay, Square, PayPal, Stripe

Version Control: Git, GitHub, Bitbucket, GitLab, Composer

Practices: System Design, SaaS Architecture, SDLC, Agile, Scrum, Performance Optimization, Team Leadership, Code Reviews

Total Experience: 6+ years

PROJECT PORTFOLIO

G+ Services (Money Exchange Shop)

<https://exchange.zaffranpay.com>

Online platform enabling customers to exchange money and send remittances to their home countries with live exchange rates. (Completed)

Tech: ReactJS, Inertia.js, Laravel, Docker, Filament, MSSQL, AJAX

GO Bong Delivery

Online food delivery system for Poipet City, Cambodia, with integrated payments and maps. (In progress)

Tech: Laravel, Inertia.js, Vue.js, Filament, Docker, Postgres

G-CON Concert Booking

<https://gconlive.com>

Online concert table booking system with integrated payments. (In progress)

Tech: Laravel, Docker, Filament, Livewire, Postgres, AJAX, HTML, CSS

G-Tech (International Payment Gateway System)

<https://sprint.zaffranpay.com>

Multi-currency deposit and withdrawal platform with agent and merchant role management and transaction records. (In progress)

Tech: Laravel, Docker, International Payment Gateway Integrations, MySQL

Get More Donations (Fundraiser Platform)

Multi-currency donation platform supporting campaign generation. (In progress)

Tech: Java, Docker, International Payment APIs

Fusion Restaurant

<https://online.fliphtml5.com/pjpec/dcxh/#p=1>

Digital menu platform for an online restaurant.

Tech: PHP, CodeIgniter, CI/CD Jenkins, MySQL

Review Your Rentals (Real Estate Platform)

Platform allowing tenants to review, like, and dislike rental properties after move-out.

Tech: Java, Docker, MSSQL, Rest Apis

Classical Archives Music Site (PRS)

Online music streaming and subscription service.

Tech: AngularJS (frontend API integration)

Quality Referee

<https://qualityreferee.com>

Referral-based platform with integrated Square payment gateway.

Tech: Java, MySQL, Rest Apis

Kissinger (Web Stores Dashboard)

Dashboard for managing databases across multiple web stores.

Tech: Laravel, ReactJS, Data Table, Editor, Oracle

IFTI (Independent Floor Testing & Inspection)

Dashboard for creating project documents, viewing and reviewing functionality, and adding people to projects.

Tech: Laravel, Data Table, AJAX, jQuery, HTML, CSS, Text Editor, MSSQL

EDUCATION

Bachelor of Technology in Computer Science | 2020 - 2023

Dr. APJ Abdul Kalam Technical University, Lucknow, UP, India

CERTIFICATIONS & AWARDS

- **Course Completion Certificate in DevOps, AWS, Azure, GCP & GenAI** — PaperLive Learning, in collaboration with Microsoft (April 2026, Certification Code: PL-063-10)
- **Claude Code 101** — Anthropic, Certificate of Completion (2026)
- **Claude 101** — Anthropic, Certificate of Completion (2026)
- 45-Day Vocational Training, SOFTPRO INDIA PVT LTD
- Best Performance Award during vocational training at SOFTPRO INDIA PVT LTD

ADDITIONAL INFORMATION

Nationality: Indian

Languages: English, Hindi, Khmer, Thai

Interests: Learning new technologies, programming and web design, debugging
